

# *Phi Upsilon Omicron®*

## *Member Testimonials*

*Submitted by Kathryn Overn, National Collegiate Chair*

**Caylen Knight (Region 2 Representative):** “To me, Phi U means connecting with students, community members, and professionals who share a similar passion. Phi U is an organization that lends to opportunities to grow in leadership development and inspires others to make an impact on their schools and community. I would encourage Phi U members to utilize networking and leadership positions within Phi U and to always remember to give back! By uniting with others that have common goals and aspirations, you can make a huge difference”.

**Kara Young (Region 3 Representative):** “Phi U is an opportunity for all areas of family and consumer sciences to unite together. It means to support and raise awareness for all professions in FCS. Within Phi U, networks are created, connections are made, and friendships are formed. Being a member of Phi U allows for so many great opportunities; from volunteering with your local chapter to serving on National Council to attending conclave. The memories that are made through Phi U are everlasting, and I would strongly encourage everyone to make the most of their Phi U experience”.
